

RMG's curated content service OnTarget provides news, weather, traffic, sports, infotainment and financial data for display on Korbyt-powered digital signage.

OnTarget content feeds are automatically updated throughout the day to keep viewers engaged, informed and entertained. Create the best blend of content for your audience and location with up to 10 stories per rotation in six graphic styles. All feeds are available in rich graphic formats or text data feeds for use on tickers.

Find the right OnTarget package for you:
